

You are cordially invited to join the Narwhal Amateur Radio Society! We're a national ham radio group, but a number of our members are in western Washington. Our annual membership fee is \$0 (this makes it easier for our treasurer to do our books) and we provide one key leg of the Ham Triangle (Fig 1). Sometimes we do events (like Field Day On Various Islands), sometimes we send memes (ask us about SSTV in 2023!), and sometimes we just mess around. At no point do we discuss how "woke ideology" is "killing ham radio," however (because it's not), so that puts us ahead of most of the crowd on 80m LSB! Our website, with our membership form, Code of Conduct, and lots more information is at <https://nars.narwhal.be>. So come join us, because life is far too short not
